## Lavo 2

Hand-knotted and richly haptic, the original *Lavo* rug is a distinctive design characterised by shifting depths of colour that give it a multi-dimensional feel. Crafted using the same artisanal Persian knot, *Lavo 2* extends the existing colour palette with seven new neutral shades. The result is perfectly suited to contemporary high end residential interiors.

With 20,000 knots per square meter, *Lavo 2* recalls reflections of light on a soft surface. Its vibrancy and understated lustre are thanks to a combination of dyeing and a double-wash finish, as well as the blend of 80% Sardinian wool and 20% New Zealand wool used. Sardinian sheep boast a fleece whose smooth and thick fibres have a special sheen. The wool's natural shade is warm, and since the yarn is kept unbleached before dyeing, it offers a warm base tone for the complete colour range.

The woollen hand-spun yarn is deliberately kept irregular, and due to short dyeing, the pigments are absorbed with different intensities. This creates many subtle colour nuances that become visible when the pile is cut. At this point, the rug is double washed, a process which opens the fibres of the yarn and emphasises the vibrancy and shine of the wool. A hand-brushed, soft, hairy border adds an extra dimension of tactility to the design.

With *Lavo 2*, the palette now includes a total of 17 colours, the new shades 'Silverstone', 'Rock', 'Graphite', 'Charcoal', 'Moonrock', 'Umbra' and 'Dark Earth' are perfectly matched with architectural materials like concrete, stone, and wood.

*Lavo 2* is available in custom rectangular sizes as well as in round shapes and is suitable for light to moderate residential use with the exception of stairways, corridors or with the use of castors.
