Drop

Drop is a knitted upholstery textile designed by Anderssen & Voll. It combines excellent stretchability with a three-dimensional, vibrant expression.

Reminiscent of strings of multicoloured pearls, *Drop*'s pattern reflects light in different directions. As a result, the textile expresses nuances in a variety of surprising ways, which play with perception.

Each colourway for *Drop* unites up to three different colours. The colour-scale offers a number of fresh, sporty combinations, as well as a selection of more understated tone-on-tone and dark/light options. Selected colours of the woollen yarns are shared between a series of textiles in the Kvadrat Febrik collection which ensures ideal mixing and matching.

The knitted construction used for *Drop* ensures it offers strong elasticity. Consequently, it is particularly ideal for upholstering organic shapes.

Drop is well suited to both private homes and contract environments.
