Notes

- Slight colour differences may occur
- One m² contains 2.7 million bamboo viscose threads. Therefore some may detach when the rug is in use, particularly with new rugs
- Rugs made with bamboo viscose will reduce the amount they shed but will not cease shedding completely. This will not affect the appearance or quality of the rug
- If a bamboo viscose rug gets wet it will take a few days to dry fully. Do not walk on it as it will damage the yarns. The rug should not be rubbed as the structure may change
- Round or odd shape possible, will be calculated as a square or rectangle
- Larger sizes possible on request

Production time

6 – 9 weeks, variations possible with rugs > 6 m² and custom made dimensions
