Casa

Dynamic *Casa* features bright specks of colour, such as blue, green or pink, which are intermingled with understated, neutral tones. As a result, it appears unicoloured from a distance but reveals a variety of rich yet delicate colours, as the viewer gets closer.

Casa is woven in a plain weave and made from shiny, melange Trevira CS yarns, which offer exceptional colour depth. These create an elegant, random play across the surface of the curtain, and shimmer or appear matt according to the light and the styling of the interior where they are used.

Cristian Zuzunaga: “*Casa explores details and subtleties of colour and composition. The base colours, together with the touches of brighter colours, combine to create a subtle and engaging effect*”.

As *Casa* is made from Trevira CS, it is long lasting and easy to maintain. Consequently, they are suitable for private homes and contract applications. Thanks to the elegance, individuality, and practicality it offers, it is particularly well-suited to hospitality venues.

Cristian Zuzunaga

Cristian Zuzunaga creates innovative work that sits between art, fashion, and design. By examining the symbiotic relationship between analogue and digital technologies, his practice aims to make sense of our place in the world today. He has become best known for his use of pixels, which he describes as “the icon of our time”, to create colourful visual landscapes.

Zuzunaga studied Typography and Graphic Design at the London College of Communication and the Royal College of Art in London, before starting and running his own eponymous label, Zuzunaga, from 2010 to 2023. He now works in Bristol, where he recently launched Frankenstein Press, a new printmaking space, gallery, and creative workshop dedicated to his artistic practice, teaching, and meaningful collaborations.

Kvadrat
